

RINGLOCK.TECH

AUTOMATED MISSED-CALL LEAD LOCKING FOR TRADE CONTRACTORS

ZERO APP INSTALL
Keeps Your Existing Phone Number

When you're on a ladder or driving, voicemail costs you thousands.

Homeowners facing an urgent plumbing leak, storm roof damage, or broken AC do not leave voicemails. They tap the next contractor on Google Maps. Ringlock intercepts your unanswered calls and responds via two-way SMS within 3 seconds—locking in the job before competitors even know the lead existed.

62%

CALLS MISSED

Over six in ten inbound calls to trade contractors go unanswered during busy work hours.

85%

VOICEMAIL HANGUP RATE

Residential callers immediately hang up and call the next listing on Google Maps.

\$8,500+

AVERAGE REPLACEMENT VALUE

Missing just one emergency HVAC, roof, or repipe job wipes out an entire week's profit.

HOW THE 3-SECOND LEAD CATCH WORKS

INSTANT AUTOMATED FALLBACK

1 Normal Inbound Call

Homeowner dials your advertised business phone number. Ringlock rings your mobile device for 20 seconds.

2 Missed Call Intercept

If you decline the call or cannot answer, the call hangs up cleanly without directing them to a black-hole voicemail.

3 3-Sec Automated SMS

Ringlock automatically texts: *"Hey! Sorry we missed your call, we're out on a job site right now. How can we help you out?"*

4 Instant Contractor Alert

Homeowner replies with their job address and problem. You receive a hot lead text ready for 1-tap call/scheduling.

✗ Standard Contractor Experience (Voicemail)

- Unanswered call routes to generic automated voicemail.
- Homeowner hangs up without leaving message and calls competitor.
- Contractor listens to voicemail 4 hours later; customer already hired someone else.
- Result: \$3,000 – \$10,000 lost revenue per missed call.

✓ The Ringlock Experience (Instant 3-Sec SMS)

- Unanswered call triggers conversational SMS within 3 seconds.
- Homeowner stops searching Google because you've engaged them.
- Homeowner replies with job details and address directly via SMS.
- Lead is dispatched to your cell phone ready to schedule on site.
